

## **What is a Wedding Butler? What do they do for me? How can they help me? Why do I need them?**

Wedding Butlers provides assistance for brides and grooms in planning their destination wedding. We are certified wedding planners through the **Wedding Planning Institute of Canada** and registered travel agents. We've combined both of these professions to create unique and personalized destination weddings.

Our expertise comes from both formal education and from personal experiences. Book knowledge is wonderful but you can't touch the Caribbean Sea in a book and you can't walk down a stretch of white sugary beach to your wedding alter in a book either. **We fully believe that without personally experiencing what we do, we couldn't do it!**

Wedding Butlers provides packages for brides and grooms and their guests. We create custom packages specific for each destination wedding. **Wedding Butlers plans destination weddings in Mexico, the Caribbean and Tahiti and her Islands.** These are the destinations we travel to on a regular basis. We're so focused on these destinations and the Wedding Industry that our knowledge is always the most up-to-date! Plus, since **we are focused on your most important day, your Wedding Day**, we don't send you "just anywhere". Your destination wedding is the reason you are going away, so we recommend resorts that we know can suit your wedding day and your needs. In some cases, a destination wedding purchased from a full service travel agency may not have your wedding day as their top priority; some details may not even be organized until you meet with the on-site planner at the resort during the destination wedding week. This can leave a lot of unanswered questions and concerns up in the air until you arrive at destination.

Besides providing travel arrangements for the bride and groom and their group and assisting in the selection of resort choices, Wedding Butlers will create a **custom Wedding Website, custom e-invites** and send out updates to the bride and groom's group.

To create the ultimate destination wedding Wedding Butlers will provide their recommendations in resorts and wedding packages to choose from. We are in constant connection with the on-site planner to explain and follow through with the bride and groom's preferences to create their perfect wedding. Wedding Butlers also create unique personalized experiences at your destination wedding by organizing activities like "Ladies Spa Parties" or "Private Sunset Catamaran Cruise".

Your **Wedding Day is our top priority**. Each bride and groom will have **unlimited consultations** to create their dream day. We will assist in the selection of venues, locations, themes, meal choices, photography choices, flower selection and more. Anything "wedding related" we are part of it!

We even will **attend your destination wedding\***. We are there to oversee all the on-site arrangements from start to finish. Making sure your Wedding Day goes exactly as planned.

Wedding Butlers provides additional information and details regarding your destination wedding that most generic travel agents cannot or would not know to. **A bride and groom's Wedding Day means everything to us.** Wedding Butlers are part of every planning aspect to the destination wedding.

If you are thinking of a destination wedding or have questions about a destination wedding please contact us. We are here to help and would love an opportunity to assist you in any way possible. Feel free to contact us for a **free consultation**.
